Press Release

UView Acquires MotorVac Technologies

For Immediate Release: MISSISSAUGA, ON CANADA — July 2, 2009 — UView Ultraviolet Systems, Inc. a leading manufacturer of innovative service tools and products to the automotive repair industry announced today that it has acquired the assets of MotorVac Technologies, Inc.

According to Phil Trigiani, CEO of UView, “The acquisition of MotorVac reflects our continuing commitment to provide innovative and functional products to the automotive service industry. Both companies share a passion for delivering the right tool to do the job and conducting a high quality service. As a result, we will significantly increase the depth and breadth of our sales coverage resulting in significant opportunities for growth”

Based in Santa Ana, California, MotorVac (http://www.motorvac.com) is a leading supplier of professional automotive fluid maintenance equipment and service products that are distributed to over 60 countries. The company was founded in 1992 when it introduced the CarbonClean™ fuel system cleaning machine and detergent-based solutions. It continued to expand its product line to service all vehicle fluids. Today the company holds 17 patents and has earned four MOTOR Magazine Top 20 Tools Awards.

“This acquisition establishes a platform for UView to become a full service solution provider of fluid maintenance products.” said Tony Ferraro, President of UView. “It also facilitates our entry into this growing market with a highly respected brand that is well known around the world.”

The two companies have similar operational processes and share many of the same customers that will provide various synergies and increased efficiency. Mark J. Hallsman, President and CEO of MotorVac stated; “this was a strategic move that will allow the two companies to utilize their unique strengths and strong relationships to rapidly grow the combined businesses in the future.”
